

POLICY TRACKING & MONITORING

The Rule Changed. Did You Find Out in Time?

Idaho legislation and IDAPA rulemaking move constantly, and the comment windows that decide your future are short and easy to miss. We watch the Statehouse and the administrative code, then translate the noise into a short list of what changed and what to do about it — so your team is never surprised by a deadline it missed in March.

77%

of improper Medicaid payments come from missing documentation or administrative steps — not fraud.

KFF analysis of CMS Payment Error Rate Measurement (PERM), 2025. Most findings are paperwork that fell behind a rule change.

Monthly

Written briefings with prioritized action items

Bill-level

Legislative tracking across session and interim

Same-day

Comment-period and hearing alerts

WHAT WE WATCH

- **Legislation** — bill-level tracking through session and interim
- **IDAPA rulemaking** — proposed, pending, and temporary rules
- **Comment periods** — flagged while you can still respond
- **JFAC budget** — appropriations and line-item decisions
- **Hearings** — committee schedules and outcomes

WHAT YOU RECEIVE

- Monthly written briefing in plain English, not legalese
- A prioritized action list — what changed, what to do
- **Mock audits** to test your readiness before a real survey
- Hearing summaries and budget annotations
- Alerts the moment a comment window opens
- Month-to-month retainer — no larger engagement required

HOW FAST A MISSED RULE BECOMES A PROBLEM

MISSED

Comment window closes · no input on a rule that governs you · change is locked in

CAUGHT LATE

Scramble after adoption · costly retrofits · staff time lost to catch-up

CAUGHT EARLY

Advance notice · time to comment, plan, and budget · no surprises at survey

WHY HIRE ME

A single missed comment period or rule change can become an audit finding months later. I read the code so your team doesn't have to. **Monitoring is the cheapest insurance an Idaho agency can buy** — far less than the cost of scrambling after a rule has already taken effect.
